

# Backpack Electro Sprayer

Battery Operated Electrostatic Sprayer

EQUIPMENT FLYER

The Backpack Electro Sprayer can deliver up to 4.2 gallons of wide and even disinfecting mist to sterilize offices, warehouse, mass transit, schools, and more. Electrostatic technology applies a positive charge to the spray droplets so they attract to surfaces like a magnet. The result is uniform coverage of complex objects and shapes that are often missed by conventional sprayers. This easy-to-use, lithium battery powered unit is cordless with 4 included nozzle attachments to meet virtually every spraying need. UL charger and backpack harness are included for efficient mobility and re-accessibility whenever needed.

## FEATURES:

- Easy-to-use and time efficient
- Cordless - Lithium battery powered
- Provides an electrostatic charge to solutions for effective and evenly spread coverage
- Dispenses disinfectants in fine mist for sterilization and disinfection
- Contains 4 nozzle attachments to meet virtually every spraying need
- Suitable in offices, warehouses, factories, mass transit, schools, and hospitals

SKU: 47234

## Common Places of Use:

Hospitals  
Schools  
Nursing homes  
Stables  
Warehouses  
Homes  
and more
