

Super Hot Plus

Heavy Duty Activated Alkaline Sewer & Drain Opener

TECHNICAL DATA SHEET

Dissolves blockages fast to get sewer and drain lines open and flowing again.

Super Hot Plus contains a high level of caustic granules activated by aluminum needles that release substantially more intense heat and turbulence than other regular strength drain openers. This powerful combination reacts with water to liquefy, dissolve and remove a variety of clogging materials such as hair, paper, fats, oils, grease and other organic matter. Super Hot Plus offers the fastest action available in a non-acid drain opener.

Super Hot Plus is also excellent for preventative maintenance. Purge blockages that are already forming with a shovel or two down each manhole monthly. Super Hot Plus incorporates a red tracer dye to allow for fast easy tracing throughout the sewer system.

- *Ready to use extra heat formula*
- *Achieves higher temperatures to dissolve and break clogs open*
- *Works on a wide range of clogging materials*
- *Restores flow capacity and efficiency*
- *Non-corroding to sewer lines*

SKU: 09146

PRODUCT LABEL

Super Hot Plus contains caustic granules activated by aluminum needles that release substantially more intense heat and turbulence than other regular strength drain openers. The heat and movement liquefy, dissolve and remove a variety of clogging material such as hair, paper, animal and vegetable fats and oils, as well as other organic matter that clog drains and sewer lines.

DIRECTIONS:

FOR MUNICIPAL SEWER LINES: Pour or shovel 20 pounds of product into strategic manholes. If sewer system is dry, flush product with plenty of water.

FOR INDUSTRIAL DRAINS: Pour 1-2 pounds of product down drain. Where accumulations of grease and organic matter are high, pour 3-5 pounds of product down drain.

BE AWARE:

- Generates heat that may cause hazardous liquids to erupt.
- Place a deep container over treated drain.
- Never use a plunger with this product.
- Never look directly into a treated drain.
- Never use with or immediately after acid-type drain openers.
- Never enter treated sewers until thoroughly flushed with water.
