Triple Play is a total release fogger that treats up to 6,000 cubic feet of space and has a wide variety of kill claims. Triple Play deodorizes in two ways: its pleasant fragrance quickly suppresses existing unpleasant odors from many sources and it controls microorganisms that could continue to create foul odors.

- Virucidal, tuberculocidal, staphylocidal, bactericidal, pseudomonnicidal and fungicidal
- Hospital use disinfectant and antimicrobial agent
- Kills MRSA, HIV-1 (AIDS Virus), E-Coli, Herpes Simplex 1 & 2, and much more
- Sanitizes fabric, shoes, leather, mats and equipment
- Controls mold and mildew

For use in industrial, institutional, commercial and residential facilities, including: schools, buses, athletic departments, offices, hospitals, hotels, motels, restaurants/cafeterias, nursing homes, medical offices and clinics, veterinary offices and animal areas, libraries, laboratories and more.

Disinfect, sanitize and deodorize in one easy application.
