Triple Play is a total release fogger that treats up to 6,000 cubic feet of space and has a wide variety of kill claims. Triple Play deodorizes in two ways: its pleasant fragrance quickly suppresses existing unpleasant odors from many sources and it controls microorganisms that could continue to create foul odors.

- Virucidal, tuberculocidal, staphylocidal, bactericidal, pseudomonicidal and fungicidal
- Hospital use disinfectant and antimicrobial agent
- Kills MRSA, HIV-1 (AIDS Virus), E-Coli, Herpes Simplex 1 & 2, and much more
- Sanitizes fabric, shoes, leather, mats and equipment
- Controls mold and mildew

For use in industrial, institutional, commercial and residential facilities, including: schools, buses, athletic departments, offices, hospitals, hotels, motels, restaurants/cafeterias, nursing homes, medical offices and clinics, veterinary offices and animal areas, libraries, laboratories and more.

Disinfect, sanitize and deodorize in one easy application.
PRODUCT LABEL

FEATURES, CLAIMS, AND USES: This product is an effective Virucidal, Bactericidal, Fungicidal, and Tuberculocidal on hard nonporous surfaces when used as a disinfectant. The product has demonstrated effectiveness on precleaned hard nonporous surfaces against the following microorganisms:

**VIRUCIDAL**: Kills Human Immunodeficiency Virus Type 1 (HIV-1), a retrovirus that causes AIDS, Hepatitis Simplex Virus Type 1 and Hepatitis Simplex Virus Type 2, Influenza A and B (H1N1, H3N2) viruses, Herpes Simplex virus 1 and 2, cytomegalovirus, and varicella-zoster virus.

**BACTERICIDAL**: Kills Escherichia coli, Pseudomonas aeruginosa, Salmonella enterica, Salmonella choleraesuis, Staphylococcus aureus, Streptococcus pneumoniae, Streptococcus pyogenes, and Aerococcus viridans.

**TUBERCULOCIDAL**: Kil Mycobacterium tuberculosis bacilli in non-gel media (aerosol). Follow instructions for disinfection.

**CHEMICAL RESISTANCE**: The product is resistant to most disinfectants, sanitizers, and other cleaning chemicals. This product is compatible with plastic, metal, glass, porcelain, and other non-porous surfaces.

**EFFECTIVENESS**: The product is effective against the following microorganisms:

- **Kills**: Escherichia coli; Pseudomonas aeruginosa; Salmonella enterica; Salmonella choleraesuis; Staphylococcus aureus; Streptococcus pneumoniae; Streptococcus pyogenes; Aerococcus viridans; and Aerococcus viridans.

- **Kills Mycobacterium tuberculosis bacilli in non-gel media (aerosol) following disinfection**.

- **Kills**: Trichophyton mentagrophytes (ringworm), Epidermophyton floccosum (athlete's foot), Microsporum canis (ringworm), Penicillium notatum (mold), and Aspergillus niger (fungus).

**USE ON**: Wood, porcelain, plastics, metal, glass, and sealed hard nonporous surfaces.

**HAZARDS TO HUMANS & DOMESTIC ANIMALS**

- **POISONING**: Do not allow pets or children to play with the container or product. Keep out of reach of children and pets. This product contains alcohol.

**STORAGE & DISPOSAL**

- **SHIPPING & HANDLING**: Keep out of reach of children and pets. Do not use on waxed or lacquered surfaces. Keep out of reach of children and pets.

**PERSONAL PROTECTION**

- **PERSONAL PROTECTION**: Wear protective clothing, gloves, and eye protection.

**SAFETY PRECAUTIONS**

- **FIRST AID**: If in eyes: Wash eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a Poison Control Center or doctor for treatment advice.

- **IF ON SKIN OR CLOTHING**: Take off contaminated clothing. Rinse skin immediately with soap and water for at least 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

**TOTAL RELEASE DISINFECTANT, ODOUR COUNTERACTANT, SANITIZER**

**KILLS MRSA**: **KILLS ANAN INFLUENZA A VIRUS H3N2**: **KILLS PANDEMIC 2009 H1N1 INFLUENZA A VIRUS**: **HOSPITAL-USE AND BROAD-SPECTRUM DISINFECTANT AND ANTISEPTIC MICROBIAL**

**KILLS HIV-1 (AIDS VIRUS) AND HERPES SIMPLEX TYPES 1 & 2 VIRUSES ON PRECLEANED ENVIRONMENTAL SURFACES/ OBJECTS PREVIOUSLY SOURED WITH BODY/BLOOD FLUIDS**

**FOR USE ON PRECLEANED, HARD, NONPOROUS, NONFOOD CONTACT SURFACES IN/ON INDUSTRIAL, INSTITUTIONAL, COMMERCIAL, AND RESIDENTIAL FACILITIES, EQUIPMENT, AND VEHICLES.**

**ACTIVE INGREDIENTS**: 2-Phenylphenol... 0.29% 4-tert-Amphiythanol... 0.03% Ethanol... 0.05% 53.80% INERT INGREDIENTS TOTAL...

**EPA Reg. No. 44446-67-9838** EPA Est. No. 44446-TX-1

**BLOOD/BODY FLUIDS**: Personal protective items such as disposable latex gloves, gowns, protective eyewear (safety glasses), shoes and socks, and other barrier protection items such as disposable face masks, respirators, and bouffant caps should be worn when handling blood, body fluids, and other materials removed from or used to clean surfaces/objects that come in contact with blood/body fluids or other materials that may be contaminated with blood or body fluids, such as instruments, equipment, and vehicles. Despite the appropriate use of personal protective equipment, exposure to blood or body fluids may occur during handling and cleaning of these contaminated instruments, equipment, and vehicles.

**PERSONAL PROTECTION**: Wear personal protective items such as disposable latex gloves, gowns, protective eyewear (safety glasses), shoes and socks, and other barrier protection items such as disposable face masks, respirators, and bouffant caps should be worn when handling blood, body fluids, and other materials removed from or used to clean surfaces/objects that come in contact with blood/body fluids or other materials that may be contaminated with blood or body fluids, such as instruments, equipment, and vehicles.

**HAZARDS TO HUMANS & DOMESTIC ANIMALS**: Harmful if absorbed through skin. Do not get in eyes or on skin or clothing. Wear broad-brimmed hat and long sleeves. Protect eyes. Use personal protective equipment. Wash skin thoroughly with soap and water after exposure. Wash hands with soap and water before eating, drinking, chewing gum, using tobacco or taking off protective clothing or gloves. Keep out of reach of children and pets.

**FIRST AID**: If in eyes: Wash eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a Poison Control Center or doctor for treatment advice.

- **IF ON SKIN OR CLOTHING**: Take off contaminated clothing. Rinse skin immediately with soap and water for at least 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.
