## Right On - 8-Way Level

- Heavy-duty, long life anodized aluminum frame CNC milled from 6061 aircraft aluminum, 3mm - 4mm diameter
- Four professional block solid vials 0° (horizontal), 90°, 45° and 30°
- Excellent sensitivity within 1/64" (0.5mm/m) at 100' (30.48m)
- Precision accuracy within 3/64" (1.0mm/m) at 100' (30.48m)
- Block vials are much stronger, durable, and more accurate than tubular vials
- Vials are visible from both sides - 0° (horizontal) open viewing from top of the level
- Four super strong magnets for securing to all ferrous metals
- Unique V-groove design for straddling small and large pipe
- Laser measurement scale 0"- 7" (0mm - 18mm) for quick, easy on the job measuring
- Small, light, and compact enough to fit in any tool pouch
- Dual hanging attachment holes with mini lanyard on one side
- Shock and waterproof

## Right On - All Purpose Cutter

- Polished surgical-grade, Super sharp stainless steel blade embedded in a custom injection molded handle
- Built-in index finger slot with a permanent safety stop and a custom ribbed handle help prevent finger/hand slippage
- Easy to carry all day weighing less than 1 oz
- Polypropylene multi-purpose safety cap with built-in safety latch
- Use for cutting and/or removing rope, O-ring material, gaskets, gasket material, paper, cardboard, boxes, silicone, paint, varnish, packing material, and tape
